

DeLalio Elementary School, Onslow County

America 250 NC County Flag Challenge

The Onslow County flag uses colors to tell a story about our history. The red stands for the "hard ways" people worked to make us free. The white shows the sacrifices made by families, and the navy blue is for the brave veterans who live here. When you see red, white, and blue together, it represents the peace and freedom we enjoy every day.

The symbols on the flag show what makes our county feel special. There is a helicopter to honor the Air Force and the military pilots who fly in our skies. You will also see symbols for our rivers and memorials. These places remind us that peace is important and that our military heroes helped bring that peace to our county a long time ago.

Even our fun traditions are part of the story! The flag represents our culture, like our famous BBQ, which brings people together. It shows that Onslow County is a place where history and military honor meet. It is a symbol that makes us feel proud of where we live and thankful for the people who protect us. They give a lot of hope and faith that this world will be covered in nothing but peace.
