Randolph County

North Carolina  
1974 Zoo

1779

## My Randolph County Flag By: Santiago

Here is a list of what I drew on my flag. The first thing I drew was North Carolina Zoo, one of the biggest zoos in the whole entire WORLD. It was also made in 1974! The next thing I drew was the Pisgah Covered Bridge, one of the last of its kind because the original one fell down sadly. Then I drew an egg and some hay with pine trees and an apple (fruit) representing the things Randolph County produces. I also drew the Pottery Industry that has the MOST pottery in the WORLD, it was sometimes compared to Japan!

BUT WAIT! There is more to it than you think! The next thing I drew was a river, flat area, and a lake representing how Randolph County is located in the Piedmont Region! The yellow ring is a little part of the Randolph County Seal. The reason I made it was because it shows the date of when Randolph County was made! Lastly, I drew some colors like red, blue, green and a bit of brown because they represent the colors of Randolph County. So those were some things I added on to my flag to represent Randolph County.
